## EDUCATION

**Queens College**, New York  
Bachelor of Arts in Journalism,  
Marketing, 2014

**General Assembly**, New York  
Web Development, 2016

## Experience

### **SBLM Architects**

January 2017-Present

#### *Web Developer*

- Developing and designing new user-interface features, and ensuring the technical feasibility for UI/UX designs by using MockPlus and Photoshop
- Building reusable code, as well as maintaining, expanding, and designing the entire site
- Communicated directly with clients to establish project parameters, wrote proposals for design work, analyzed competitor web sites, produced site maps and mockups for client approval, and communicated progress
- Implemented and debugged front-end features as well as test functionality
- Extensive research done on the company, projects, and type of architecture to create a reflection of company values and principles

### **SONY**

June 2014 – February 2015

#### *Marketing Analyst and Coordinator*

- Demonstrated analytical and logical skills by interpreting pertinent market data and making actionable recommendations in weekly reports
- Collaborated with team members to drive primary and secondary research projects, which led to data used for investments
- Effectively communicated data on sales, reports, and profit/loss through comprehensive reports and presentations
- Designed strategic methods to collect new data by mandating in-store representatives at Best Buy locations in NYC, which increased consumer satisfaction within the first quarter
- Formulated short- and long-term plans with key objectives and implemented measurable activities

## Projects

- **SBLM**  
Company website for prominent architect firm.  
*Tech: JavaScript, HTML/ CSS, Bootstrap, jQuery, Metafizzy*
- **Personalized Weather & News App (“Grow The Fork Up”)**  
Users input a five-digit zip code to get the local weather and articles from *The New York Times*.  
*Tech: JavaScript, HTML, CSS, React, API’s, Passport, Mongo*
- **Interactive Solar System**  
An interactive solar system designed for kids, providing a minimalistic learning experience about space.  
*Tech: HTML, CSS, JavaScript, EJS, NodeJS, Parallax*
